

CSE 327.8 – Software Engineering Project

Sprint Backlog - 2

Repository Link: <https://github.com/dead-shot95/CSE327.8-Project>

Current Sprint: 20.12.3

User Story 1:

As a user, I want to be able to quickly look at the menu bar after logging in to the site, so it's easier for me to navigate from one module to another.

Tasks:

- **Day 1:** Design and code Navigation Structure. **(Story Points: 7)**
- **Day 2:** Site mapping with UI and QA testing. **(Story Points: 5)**

User Story 2:

As a user, I want to be able to have a quick overview of the certain number of tasks/deadlines I've on the front page after logging in.

Tasks:

- **Day 3:** Code work for landing page after login. **(Story Points: 5)**

Test cases:

- **Day 4:** Test the different navigation menu. **(Story Points: 1)**
- **Day 4:** Navigation structure test for User Experience. **(Story Points: 1)**
- **Day 4:** Instances of different quick overview of the landing page and the check if counters are working properly. **(Story Points: 2)**
