CSE 327.8 – Software Engineering Project

Sprint Backlog - 3

Repository Link: https://github.com/dead-shot95/CSE327.8-Project

Current Sprint: 20.12.4

User Story 1:

As a user, I want to be able to quickly add my day to day tasks, priorities, deadlines, appointments I'm performing, so it's easier for me to organize all my activities in one single screen.

Tasks:

- **Day 1:** Design and code tasks, priorities, deadline, appointments sections. **(Story Points: 5)**
- **Day 1:** DB implementation, mapping and QA test. **(Story Points: 7)**

User Story 2:

As a user I want to be able to delete/update/retrieve my to-do list, so it's easier for me to keep track of all my activities and be able to finish it on the go.

Tasks:

- **Day 2:** Code work for the crude functionalities. **(Story Points: 5)**
- **Day 2:** DB implementation, mapping and QA test. **(Story Point: 3)**

Test cases:

- **Day 3:** Test the input functionality of the different types of To-Do list. **(Story Points: 1)**
- **Day 3:** Test delete/update/retrieve functionality for the To-Do list. **(Story Points: 1)**
- **Day 4:** Check database mapping of the different crude functionality **(Story Points: 2)**
